**NYSAES Email List Changes**

Anyone who uses NYSAES email lists (e.g., `nysaes_all`, `fst_faculty`, etc) needs to read this notice regarding an email list change happening 1-November-2007.

Because of the increased volume of junk email (“spam”) on NYSAES email lists, we are changing to a new email list system that accepts email only from list members. If you’re on a NYSAES email list, this will reduce the amount of spam you receive.

Email to NYSAES lists will be closed. This means lists will accept messages only from addresses subscribed to the list. All messages detected as spam or viruses, even if they seem to be from subscribed addresses, will be rejected.

Anyone who was previously subscribed to a NYSAES list is still subscribed to the list. You do not need to resubscribe.

The addresses to send email to the lists are changing. A list of the old and new list addresses appears at the end of this document. You may begin sending email to the lists using their new address immediately. The old list addresses will continue to work until 1-November-2007. After that date, email sent to the old list address will no longer work. During the period when both the old and new address are working, messages should be sent to only one address so the user doesn’t receive two copies.

To send a message to all faculty, students, and staff at NYSAES, address your message to `nysaes-all-L@cornell.edu` (all list addresses now end in `@cornell.edu`). If you need to send to a list you’re not on, contact either a member of the list or the Computer Center for assistance.

If you have a list of department email addresses in Eudora, those addresses will not change. You do not need to download new lists. Once you start sending email to a new list, no further changes are needed. The up-to-date addresses reside on an email server and don’t need to be downloaded.

**Getting assistance**

Please contact the Computer Center at x2289 or `cc@nysaes.cornell.edu` if you have questions on using NYSAES email lists. This includes adding, changing, or removing addresses as well as setting up new lists.

**NYSAES email list addresses**

The new and old NYSAES email list addresses follow. Since lists may be added or retired in the future, an up-to-date listing of NYASES lists is provided through a Quick Link on the NYSAES web home page or at:

[http://www.nysaes.cornell.edu/cc/mail\\_lists.cgi](http://www.nysaes.cornell.edu/cc/mail_lists.cgi)
